301-704-7684

Front-End web developer specializing in metrics-based UI design and implementation. Well-versed in raw JavaScript fundamentals alongside extensive experience with various front-end technologies including React, JQuery, Webpack, cutting-edge CSS and various testing suites. My passion for clean, concise code and product design is matched by my excellent interpersonal and professional communication skills.

Skills

JavaScript, HTML5, Node, React, JQuery, PostCSS, Karma/Jasmine, Webpack, SmartOS, Nginx, Github, Google Analytics, Sketch, Illustrator, Photoshop, InDesign, Lightroom

Education

Ithaca College Park School of Communications, Ithaca, NY
B. S. Television-Radio, Concentration in Video Production (2004)

Experience

Sahm Design, Freelance Web Developer/Designer *Feb 2017 - Present*
- Provide independent technology consulting for various companies and projects

AetherWorks, Front-End Developer/Designer *Sept 2016 - Feb 2017*
- Lead complete redesign of AetherWorks' software and marketing materials
- Developed and designed React/Redux/Webpack/SCSS application, focused on the rapid iteration of a live, in-browser, interactive interface

Sahm Design, Freelance Web Developer/Designer *Nov 2015 - Aug 2016*
- Provide independent technology consulting for various companies and projects

Lucera Financial Infrastructures, Front End Engineer *Nov 2013 - October 2015*
- Designed, coded and deployed responsive web tools for high-frequency currency traders working for some of the largest banks in the world
- Managed project features, expectations, scope and deadlines in synch with clients, marketing, sales, upper management, dev-ops and my teams
- Envisioned and created company's front-facing marketing sites
- Created interactive in-browser mockups and styleguides using HTML, SCSS/LESS and Javascript

Sahm Design, Freelance Web Developer/Designer *Nov 2010 - Nov 2013*
- Bridged the gap between design and development, often as the lead in both
- Coded original & edited existing HTML, CSS, JavaScript, and Ruby
- Assembled and managed teams that consistently met deadlines and surpassed client expecations

Independent Tech and Media Consultant, Mae Sariang, Thailand *Nov 2009- Jul 2010*
- Coordinated, installed, and networked Linux Ubuntu 10 migrations from Windows XP for refugee aid organizations
- Served as one-man team providing all IT training and support to battlefield medics
- Produced, filmed, and edited broadcast-ready fundraising videos for nonprofits
